DIVIDER CURTAINS

FISHER

Fold Up Curtains

GDCFU Fold Up Curtains are both functional and attractive. 18 oz. reinforced vinyl and vinyl coated polyester mesh construction. The accordion style folding action is accomplished with cables running vertically through grommets as the bottom tube is raised. Smooth folding action is achieved by a 1 HP direct drive winch. The curtain is mounted to the building structure and is virtually invisible in the raised position. The center line drive shaft spreads the weight of the curtain over its entire length for proper alignment, appearance and safety. Available in 11 vinyl and 6 mesh color choices. Use a combination of mesh top and vinyl bottom, solid mesh or solid vinyl for your curtain style.

Fold up curtains come with a 1 HP, state of the art, direct drive winch (GDCFUMOTOR100). This system uses no belts, chains or oil and is completely maintenance free. Entire winch is UL listed. For curtains over 3000 sq. ft., use winch GDCFUMOTOR150 (1 1/2 HP, 3 phase power).

All divider curtains are available with MEC pad operation. No more keys.
